ABOUT ME

"Hello, I'm Pritam Kumar from Bihar. I completed my 10th grade from BSEB and am currently pursuing a Diploma in Computer Science at Centurion University of Technology and Management. I enjoy exploring new things, taking on challenges, and expressing my creativity through art. I am goal-oriented and eager to learn and grow in the field of technology."

PROJECT

- **WEBSITE HOSTING USING AWS EC2**

Hosted a website using AWS EC2, configured security groups, and linked a custom domain via Route 53. Ensured secure access with SSL and optimized performance with basic monitoring.

- **IOT BASED SMART CLASSROOM**

Creating an Io T-enabled Smart Classroom with automated lighting, temperature control, attendance tracking and live lecture streaming for improved learning, efficiency and student engagement.

- **ERP DASHBOARD IN PYTHON**

Developed a dynamic ERP dashboard using Python to manage and visualize key business operations. Integrated data processing, user authentication, and interactive visualizations for real-time insights.

- **SIMPLE CALCULATOR**

The Simple Calculator is a web-based application that allows users to perform basic arithmetic operations, including addition, subtraction, multiplication, and division. Built using HTML, CSS, and JavaScript, this project showcases fundamental web development skills and provides an interactive user experience.
